

# DEFEND THE LAND

## #THEYOWEUS

**OUR ONLY DEBT IS TO THE LAND THEY STOLE**

Fuck paying your debt. They owe us land. Land became property, real estate to be bought and sold, people displaced from land and forced into labor. Out of the vast wealth produced through the exploitation and genocide of our peoples, came the banking and financial systems that own our debt. The real debt is with the land and our roots will always be more powerful.
